
Kathon

At Karbon,
fire is more than heat it is a processof transformation.

Flame: The Journey follows that transformation from fresh wood, to rising flame, drifting smoke, and finally ash.

As the fire changes, so do the cocktails
beginning bright and aromatic, building into heat and intensity,
deepening into smoke and layered flavors,
before settling into something darker, smoother and slower.

Twelve drinks, each capturing a different
moment in the life of a flame.

This is the slower, more complex part of the journey.**
